

EXPERT SPEAKER & DIGITAL TRANSFORMATION: DAAD WEBINAR

Event: DAAD Webinar: Digital formats in international Higher Education projects. | **By:** German Academic Exchange Service (DAAD) | **Date:** July 2020 | **Role:** Featured Presenter / Subject Expert

Executive Summary

Invited as a **Featured Presenter** by the **DAAD** during the critical peak of the **COVID-19 pandemic (July 2020)**. At a time when international higher education faced an unprecedented halt, I shared specialized insights on the rapid implementation of digital formats to ensure institutional survival and operational continuity.

The webinar provided a strategic roadmap for academic organizations worldwide to transition from physical-first to **digital-first** models, managing the urgency of the global lockdowns through scalable technology.

Key Contributions & Topics

During the session, I presented a strategic framework for:

- **Crisis-Driven Digital Adoption:** Navigating the urgent shift to remote operations without losing academic or administrative rigor.
- **Digital Change Management:** Overcoming institutional resistance and technical barriers during a period of global disruption.
- **Operational Resilience:** Leveraging SaaS tools to maintain cross-border project management despite international travel bans.

Evidence & Verification

Formal verification of this expert engagement is provided through the original presentation materials and DAAD academic records:

- **Document Reference:** [DAAD_Webinar_Digital_Formats_Slides_MSV.pdf](#) Retrieved from: [Website of DAAD.DE](#)
- **Status:** Key Speaker in the official DAAD emergency response series for digital transformation. Featured Speaker in the official DAAD digital transformation series.
- **Material Included:** Full slide deck detailing the technical and strategic approach to digitalizing international cooperation.

My role as a DAAD speaker during the pandemic highlights:

1. **Pioneer in Digital Education:** Proven track record of leading digital transformation long before it became an industry standard.
2. **Agility & Crisis Management:** Proven ability to lead and provide solutions under extreme pressure and global uncertainty.
3. **First-Responder for Digital Infrastructure:** Recognized by German federal authorities as the go-to expert for saving international cooperation models through technology when they were most at risk.
4. **Operational Mastery:** Beyond theory, I demonstrated the "operational mastery" required to turn a global crisis into an opportunity for digital modernization.
5. **Thought Leadership:** Recognition by German federal authorities as a leader in the "Digital-First" institutional movement.

This document serves as professional verification of subject matter expertise in Digital Transformation and Leadership.
